PERSONAL DETAILS

- Name in Full:- Weligaththa Sethuge Thidath Dulanja
- Date of birth:- 22th August 2002
- Nationality:- Sir Lanka
- Gender:- Male
- School Attended:- St.Mary's College Hambantota

INTERESTS

- Computer Network
- Mobile Application Development
- DevOps
- Full Stack Development

EDUCATION QUALIFICATIONS

- 2018** G.C.E, O/Level St.Marry's College Hambantota
3B , 4C and 2S passes.
- 2021/2022** G.C.E, A/Level St.Marry's College Hambantota **1B and 2C passes. (District Rank 120 and Z Score 0.8067)**

PROFESSIONAL QUALIFICATIONS

Higher National Diploma in Information Technology (HNDIT-2023)

Sri Lanka Institute of Advanced a Technological Education (SLIATE-Galle)

First Year First Semester

- Visual Application Programming
- Web Design
- Computer and Network System
- Information Management and Information Systems
- ICT Project (Individual)
- Communication Skills

Second Year First Semester

- Object Oriented Programming
- Web Programming
- Data Structures and Algorithms
- Database Management System
- Operating Systems
- Information & Computer Security
- Statistics for IT

First Year Second Semester

- Fundamentals of Programming
- Software Development
- System Analysis and Design
- Data Communication and Computer Networks
- Principles of USER Interface Design
- ICT Project(Group)
- Technical Writing
- Human Values & Professional Ethics(NGPA)

Second Year Second Semester

- Software Engineering
- Machine Learning
- Enterprise Architecture
- Software Quality Assurance
- IT Project Management
- Professional World
- Programming Individual Project

PROJECTS

City Bus Tracking Mobile Application- Final Year Individual Project

Technologies: Flutter, Dart, Supabase (PostgreSQL, Auth, RLS), Node.js, Google Maps API, Geolocator

Developed a real-time mobile application to track city buses, enabling passengers to view live bus locations, estimated arrival times, and optimal routes. The system improves public transportation efficiency by enhancing communication between drivers and commuters.

TECHNICAL SKILLS

- Framework: Flutter
- Programming: Dart, PHP, Java(basic) , java script
- Web Development: HTML, CSS, java script
- Database: MySQL, Supabase
- Networking Tools: Cisco Packet Tracer
- Operating Systems: Windows
- Other Tools: VS Code, IntelliJ IDEA, XAMPP, Android Studio

SKILLS

- Project Management
- Public Relations
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking
- Digital Marketing

LANGUAGES

- English (Basic)
- Sinhala (Fluent)
- Japan (in progress)

Key Features & Contributions:

- Real-time Bus Tracking – Integrated Google Maps API and Geolocator for live GPS updates of buses.
- Authentication & User Management – Implemented secure login/registration using Supabase Auth with role-based access (Admin, Driver, Passenger).
- Database & Backend – Designed and managed a Supabase PostgreSQL database with Row Level Security (RLS) policies; built APIs in Node.js for data synchronization.
- Interactive Map UI – Built a Flutter-based map interface displaying bus routes, stops, and real-time positions.
- ETA Prediction – Calculated estimated bus arrival times using GPS and distance matrix.
- Cross-Platform Deployment – Delivered Android and iOS versions using Flutter.

Lending Institution Management System

- Customer Management – Built modules for borrower registration, profile management, and credit history tracking.
- Loan Processing – Automated loan application approval, disbursement, and installment scheduling.
- Repayment Tracking – Implemented payment reminders, overdue alerts, and amortization schedules.
- Secure Authentication – Role-based access control for administrators, loan officers, and customers.
- Financial Reporting – Generated real-time reports on loan performance, repayments, and outstanding balances.
- User-Friendly Interface – Designed responsive web pages using HTML, CSS, JavaScript

WEB-Based Student Management System

- Enabling student record tracking, attendance, and course management. Focused on backend logic, data handling, and team version control using Git.
- Technologies : PHP, MySQL

A Website for a Restaurant - First Year Project

- Displaying services, gallery and contact information for a restaurant
- Technology: HTML, CSS
